## CHAINS

Attachment chain (length 220 mm) makes it easier to ensure that a padlock does not get mislaid while the object that it secures is open. These chains must not be used as part of a security installation.

Chains are available in two sizes,  
805349 for a 8 mm shackle and  
805351 for a 10 mm shackle.  
810270 for a 14 mm shackle.

An ASSA ABLOY Group brand

Abloy Oy is one of the leading manufacturers of locks, locking systems and architectural hardware and the world's leading developer of products in the field of electromechanical locking technology.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

ASSA ABLOY

An ASSA ABLOY Group brand

ASSA ABLOY

ABLOY® padlocks offer a selection of different key systems, key profiles and key security levels.

## SECURITY IS THE KEY TO SUCCESS

Everyone needs to be secure.

Governments, companies, organizations and private individuals.

Criminal acts, violence and breakdowns in information transfer, production and distribution occur increasingly often in everyday life - good reason to ensure that there are no gaps in your security. Everyone can then concentrate on what is most important to them. Without having to worry.

## PROVEN DURABILITY

ABLOY® padlocks have been designed and manufactured to not only meet the requirements of the EN12320 padlock standard, but exceed as the requirements of our own tests are significantly higher.

ABLOY® padlocks continued to operate smoothly throughout exhaustive durability tests such as the acetic acid salt-spray test – they are therefore the best possible alternative

for use in unprotected locations where the environmental conditions are severe. Abloy Oy has paid particular attention in design of environmentally friendly production methods. As a result we use the most modern and environmentally friendly surface plating facility in Finland.

All the operations are qualified with the ISO9001 and ISO14001 certifications.
